

# VIDEO OF THE WEEK

The theme of this week is Mauritius, not just because it's a nice holiday destination! There are some great options for higher education in Mauritius, an innovative one like [African Leadership University](#), as well as satellite campuses of some well-known universities like [Middlesex](#) (UK) and [Curtin](#) (Australia). The cost savings of doing a Middlesex degree in Mauritius is significant. Perhaps a closer look at Mauritius as a potential study destination is worth considering.
